

## Stanthorpe's Big Thermometer

As you may be aware, the call for a "Big Thermometer" as a tourist attraction has been in the wind for many years.

Mick Spiller, Coordinator of the Big Thermometer Steering Committee, on behalf of the Stanthorpe & Granite Belt Chamber of Commerce, has finally been successful in making this structure a reality. The design, approval and grant funding has allowed this exciting project to progress and will commence within weeks.

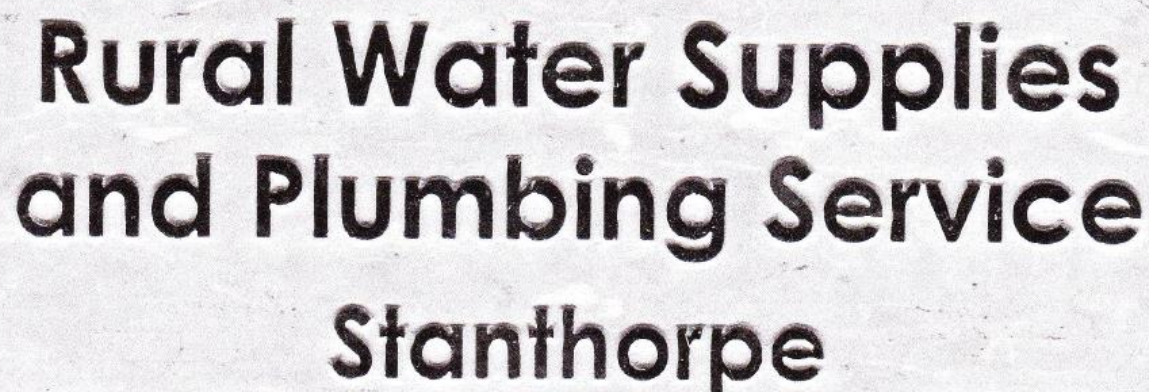

Our priority is to involve the whole community in this long awaited venture. We wish to provide you with the opportunity to become a permanent part of this tourist attraction, by ordering a commemorative plaque that will be installed in the landscaping design in the form of a pathway leading to the Big Thermometer construction.

The plaques will depict the names of businesses and/or families that wish to be immortalised into the landscape design of this iconic structure. A prototype of the available plaques was recently displayed at the Big Thermometer launch, held in Rotary Park on Sunday 5 November 2017.

An example of the commemorative plaque is shown below, and details of how you can purchase a plaque, are detailed on the reverse side of this flyer.

Please complete the order form on the reverse side, for your chance to become a part of this historical community event. Further progress and fund-raising events will be released into the media shortly, but do not miss this opportunity to highlight your business and/or family name into the Big Thermometer landscape design.

We look forward to your participation and welcome you to be a part of this new structure representing the coldest town in Queensland.
